TOWN OF GREENWICH

Greenwich exudes that rare mix of a small-town cosmopolitan atmosphere. One stroll down the Avenue is all it takes to soak it all in—this is a singular community, whose reputation precedes it. Beautiful public parks and shoreline, world-class shopping and dining, and a feel-good community atmosphere.

PARKS & RECREATION

This coastal town is the largest on Connecticut's 'Gold Coast' due to its many hedge funds and large financial service companies. The town has four beaches on Long Island Sound where you can enjoy swimming, boating, fishing or relaxing on the sand. Several festivals take place throughout the year for all interests; arts, film, food, and cultural. Take a stroll through Greenwich's downtown where you can enjoy fine dining, shops, and other attractions.

The mission of the Town of Greenwich Parks and Recreation Department is to deliver high-quality leisure time opportunities through safe, well-organized, and affordable activity programs and

special events. We offer and facilitate an array of leisure opportunities for all age groups that enhance the physical, intellectual, mental, social, and cultural growth and development of our residents. We ensure reasonable access to all programs by bridging physical and economic gaps that impede participation.

EDUCATION

The mission of the Greenwich Public Schools is to educate all students to their highest level of academic potential and to teach them the skills and knowledge to become capable, creative, and responsible members of society.

The Greenwich Public Schools include eleven elementary schools (K-5), three middle schools (6-8), one high school (9-12), and one alternative high school. The schools range in size from the 220-pupil Parkway Elementary School to Greenwich High School with 2,795 students. The District also provides a tuition-based preschool program with locations at four of our elementary schools.
